

THE YARDWORKS QUARTERLY NEWS

LET US HELP YOU GROW...

YARDWORKS New Retail, and Onsite Services Divisions

YARDWORKS expands into 2009 with several new services, and a new quarterly newsletter to keep all our valued customers up-to-date with all the latest YARDWORKS news and happenings within the local composted media industry here in BC.

2008 saw us grow our quality composted PRO-SOIL, Aggregates, and Sands operations with new, larger blending yards in **Delta**, and **Abbotsford**, as well as the addition of Delivery and Pick-Up Depots in **Chilliwack** and **Maple Ridge**. With a fleet of over 100 trucks to serve you with sameday service,

Pro-Soil Pre-Blending Prior to Final Processing and Delivery

YARDWORKS is now the largest professional compost soil blender and supplier by shipped volume in Western Canada. Adding to our commercial bulk delivery capabilities, we are now also making all our products available through popular **Retail, Nursery, Landscape**

Depots, and Small Delivery Distributors for the non-commercial residential marketplace from West Vancouver to Chilliwack. Check out all our dealers and a whole host of new helpful related information on our newly updated website at www.yardworkssupply.ca.

Our Onsite Services team now has the ability to offer **Onsite Composting** right at your project's location. Our sustainable operation minimizes environmental impact, trucking, and land-clearing costs and maximizes your profits by turning your site grindings into a quality compost mulch product.

CASCADE ENVIROTECH : Bio-Remediation & Stormwater Management

We are excited to announce the launch of our new sister company:

CASCADE ENVIROTECH is the official BC, Alberta, Washington, and Oregon supplier of Australian based international Star Water Systems' proven Bio-Remediation and Stormwater Filtration / Mgmt / Erosion Control Eco-Media solutions.

Eco-Media BioSwale Installation at the new Peace Arch Visitor Center Helps Gain LEED Points and Treats Contaminated Runoff

CASCADE offers **superior sediment control** on environmentally sensitive projects, and we can ALSO fully and effectively **filter, treat, and eliminate harmful waterborne contaminants** such as hydrocarbons, heavy metals, chemicals, and excess nutrients.

We provide a full range of professionally installed/supplied **Filter Bales, Filter Socks**, and related **Customized Eco-Filtermedia**.
